### Experience with Augmented Reality Books (AR Books)

**Augmented Reality** is a technology that allows you combine the Physical World with the Virtual World using a technological device.

A book that augments reality and immerses readers in a story by physically engaging the senses is a new way to educate and entertain readers. For children who spend more time looking at screens than books, and for readers who sometimes find it hard to maintain their attention with a traditional book, augmented reality (AR) is a way to make books more interactive and accessible.

想更仔細看看鳥兒拍動翅膀飛行的樣子嗎？有了這本書，就不怕看不清楚。聽聽金剛鸚鵡的叫聲，看看黑面琵鷺的棲息環境，還有更多美麗的鳥類等你來發現！

## December

### Get Wrapped in Good Book! (Christmas Book Tree)

We have set up three "Christmas Trees" at our school Library - one with books of green book covers, one with books carefully selected by teachers catering for G1-2 students and one with books chosen by teachers for G3-4 and G5-6 students. Books chosen by teachers that are categorized by reading level have been nicely gift-wrapped with eco-friendly paper. Students who come to the library to get their "Christmas Gifts", I.e. the books from the Christmas Book Trees can also get a very special and unique Christmas card drawn by G1-2 students. Blank Christmas cards are also available at the library front desk for students who want to express the blessings. We hope to cultivate the idea that **READING** is a **GIFT** and we can also express and spread our season's blessings through reading.

## February

### Blind Date with A Book

Take a book home without knowing its title. Go ahead ... take a chance on love!

During the month of February, the library will invite students and teachers to go on a blind date with a book. A wide variety of books will be wrapped in pink paper (stick a **slip of paper** on top it) and placed on display. Then check out one of the specially wrapped books and turn in a "**Rate Your Date**" slip for a chance to win a prize.
